METHODOLOGY
<p>Prepared by OCHA</p> <p>Vetting and live service provision by Information Technology Outreach Services (ITOS) with funding from USAID.</p>

CAVEATS
<p>The administrative level 0 and 1 KMZ files were converted from generalized (tolerance 0.001 degree) versions of the shapefiles because some polygons in the original shapefiles had more than 30,000 vertices. The shapefiles and geodatabase feature classes provided are the originals.</p>
